Subject: Letter of recommendation

During my contract as a Communications Manager for the Propane Gas Association of Canada, we had to plan and create the French version of the Association's website. Ci2 Group was already our website provider at this time, and we had full confidence they would be an important partner in making this project successful.

Working with Ci2 Group, more specifically Sean and Keith Kern, was easy and fun. They were accessible and were answering our questions within good timeline. But most of all, we really appreciated their expertise and technical knowledge that made the creation of the French website so easy for us. Easy-to-use and good-priced solutions to include French contents and applications were suggested and implemented, and the final product was even better than what we could imagine.

I highly recommend Ci2 for the creation of similar projects. Their technical expertise, as well as their customer relations, make them a successful partner.

Thank you and please don't hesitate to call me if you need further recommendations.
